GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Capsized and Drowned

NEW YORK, Aug 26—The sloop yacht Zephy with a fishing and shooting party from this city on board was capsized in Sheepshead Bay on Sunday and four of them including the captain drowned

Rail and Steamer Contract

NEW YORK, Aug 26—It is stated that a new contract has been drawn up which will be signed by officers of the Pacific roads in a few days It calls for a uniform San Francisco passenger rate rail or steamer at $1 [illegible] in consideration of which the Pacific Mail is to receive ten dollars head money for every through passenger carried by the Union Pacific to and from San Francisco This is an increase of five dollars head money over the Clyde contract of 1876 and it is estimated will yield to the Pacific Mail treasury monthly the sum of $22 000 It is also understood that both companies are to act independently in the matter of freights regardless of each other or of existing circulars President Babcock of the Pacific Mail peremptorily declining to enter into any scheme that would require an advance in the freight rates now being charged by the Pacific Mail

Extended Strike

PHILADELPHIA, Aug. 26—One thousand men in the iron mills of James Rowland & Co., Stephen Robbins & Son, Marshal Bros & Co, Philadelphia Iron and Steel Co Hughes & Patterson, Fairhill Iron Co and John P Verre, notified their employers last night that they would not come to work on Monday at the proposed reduction of wages The strikers are members of an amalgamated association of iron and steel workers of the United States, headquarters at Pittsburg and the strike has taken place with the sanction of that body, which agrees to support the strikers.

NASHVILLE, Tenn, Aug 26—Commissioner Raum has telegraphed Collector Woodcock to employ all the men necessary to suppress illicit distillation of spirits in this district

The Butler Campaign.

NEW YORK, Aug 26—A Boston special says it is understood Butler will this week address a letter acceding to the request of signers of his petition, asking him to run for governor. The claim is made at his headquarters that 49,000 names have been received, and that of these nearly 14,000 are residents of this city. An absurd statement is published, on authority of one of the Butler leaders, that intimidation has been resorted to by anti-Butler men to prevent persons well disposed toward Butler from signing his petitions, and that merchants have been threatened in circulars emanating from the national banks in New York, which calls upon all business men to see to it that no greenbacker in their district shall be elected to congress or any high position, and that discount will be refused the paper of any business man who shall identify himself with the greenback cause. Butler, it is said, will soon take the stump.

Pursuing Indian Raiders.

VIRGINIA CITY, Mont., Aug 26—The ranchman from whom the Indians stole stock at a ranch on the Montana road a week ago, followed them with a party of citizens till found. They had joined a larger party and were too strong, when the pursuers returned It is supposed they are congregating near Henry Lake Capt. Eagan, with a company of 2d cavalry, would reach Henry Lake yesterday. Small parties of soldiers are also in the National Park from Fort Ellis Some of them will undoubtedly strike the Indians in a day or two.

The Thunderer on Our Relations with Canada

LONDON Aug 26—The *Times* on the desire of the United States to negotiate reciprocity treaty with Canada on the basis of the economical doctrine prevalent in the union says Canada is within operation of England's commercial treaties and could not establish reciprocity with the United States without transgressing the most favored nation's clause in these treaties Whether apart from the question of our treaty obligations there would be any disposition in Canada to assent to the proposal is most doubtful The mind of Canada can be freely expressed in the parliament of the Dominion and we are willing to abide by its free declarations There is no disposition to fetter Canadian liberty of action, even if the abolishment of customs with the United States was the result of it but the prospects of the scheme are at least doubtful When the subject was raised some four years since the Dominion government protested they would never listen to any suggestion for the admission of manufactures of the United States on more favored terms than those of the United Kingdom and we have no reason to suppose any change of sentiment has since been developed

It is Just So

From the Indianapolis Journal

No more disgusting spectacle in its way was ever witnessed than General Butler's visit to Dennis Kearney An ignorant illiterate man who is also an avowed Communist and professional agitator goes to Boston for the purpose of arraying [illegible] among the workingmen and [illegible] against capital and General Butler [illegible] [illegible] a public [illegible] [illegible] his remarks [illegible] He's pretty [illegible] fellow and we're getting a good deal of money from the interior department John Sherman came down with a cool $100

A TALK WITH A TRAMP

[illegible] ADVENTURES AND [illegible]

A Man in Ohio [Letter to N Y Herald]

He was a [illegible] thirty and [illegible] While he was ravenously disposing of some victuals in a [illegible] here I applied the interviewer's pump so as to ascertain if there was anything interesting in his past present or prospects for the future He [illegible] between good [illegible] mouthfuls of beef [illegible] swallows of hot coffee substantially as follows

You've been good to me Cap [illegible] deserve to be called Colonel Well Colonel you've been good to me so I'll tell you how [illegible] I ain't a professor of trampin though you may think from my looks [illegible] [With this he [illegible] with his ragged and greasy coat sleeve and making his frontispiece appear still dirtier] I was born [illegible] My parents was what you'd call pious and they lived in Connecticut Yes sir, I was brought up fine but I wouldn't do as they—the folks my parents that is—wanted me to I would not study at school There I just got a chance to read story papers and books like yellow covered novels I did it when the teacher wasn't looking and he didn't care much anyhow so long as he got his money for workin You want to know how I got to be a tramp—a wayside sailor some of us most knowing ones calls it—well I'll tell you I ain't but twenty four years old would you believe that Well I say Colonel mother died and I didn't like father and I just run off from home Where did I go to Well Colonel that was eight or nine years ago and since then father died but my brothers got the property Why I've knocked around everywhere I've bin in [illegible] by stealin rides I didn't pay no hundred dollars for it either You bet I [illegible] Say do you know [illegible]

Jay Gould

Yes that's him I went to him once in New York to beg for a ticket to California [illegible] So I just concluded I'd get even and I went to California without paying a cent I've got a way of ridin under cars above wheels you know—that no one can't detect Say Colonel what's your business

I'm a newspaper man from Cleveland

Cleveland Colonel that's just where I come from lately Do you want me to tell you [illegible] that happened for your paper

I looked to ascertain if the train which I was to take had not yet arrived and replied in the affirmative

Well Colonel, I couldn't ride on these cars without being seen They ain't since as [illegible] the cars for that and this paper [illegible] show you how I got along I am [illegible] writer but I just thought I'd keep a what do you call it—diaree and since you've been kind to me, Colonel you can have it I think I'll go to Washington and see that monopolist Sherman

The tramp tried to press my hand with his very greasy digits and handed me a couple of sheets of soiled foolscap paper which had been pretty thoroughly scrawled over, as I parted with my new found friend to step on the train The wayside sailor rather gloomily waved his hat at me as the locomotive pulled out and I proceeded for want of a better occupation to inspect his manuscript The following was distinguishable the major part of the spelling and wretched use of capitals being corrected

I have just left Cleveland this July 31st, an am goin to Pittsburg and I guess Washington to see the poor man's enemy John Sherman It is hot and I stole a good ride on freight but the heartless conductor drove me off at Newburg, where I went over into the asylum grounds and took a rest I was goin to get something for eat, when a man took me for a lunatic and just threatened to put me in chains, and so I went to a dwelling house where a lady wouldn't give me anything, and I went on to a shop, and there I got some crackers I expected to get something better but the monopolist wouldn't let me have any coffee or cider although he was drawing some of the latter Thus it is that we poor people are bein constantly dug down into the ground I slept in a barn beyond the asylum and I thought in my dreams how I would like to get even with the devil the oppressor I refer to the money power which is run by such people as Gould and Sherman I am thinkin of goin from Pittsburg to Washington and maybe I can do something against this monopolist Sherman in favor of poor and oppressed men like me N B—if some one will give me a ten dollar note from Sherman I won't go near Washington but I'll keep away I got my breakfast by threatening an old woman near Newburg well I wouldn't have done it, but I couldn't have got it no other way I rode to Bedford on a farmer's wagon That there farmer wanted to hire me to help him get in his grain, but there was nothin' green in my eye and so I told him I had important biz in Pittsburg A little boy gave me some apples to eat in Bedford and I afterward just asked his mother and she gave me some more These and a sandwich I got I gave to a man for two chews of tobacco and a smoke Two of us waysiders stopped at Ravenna for night and was not well treated by the town authorities which reminded us of that monopoly which always puts honesty and right down in the dust It is time the people arose and protected themselves against such outrages which have made me locked up several times I have a spirit which will not brook such tyre—

At this point the paper was torn but the tyre seemed to stand for tyranny and farther on there was a scrap of paper hanging on to the sheet by a narrow strip which indicated that the tramp had begun to debate the advisability of sailing for New York to appear before the congressional labor committee in preference to tearing down the walls of the United States treasury around Secretary Sherman's head Probably the self sacrificing hero will next be heard from seated beside the patriotic Schwab in the congressional committee chamber at Gotham

NORTHERN PACIFIC LANDS

RETURN OF AN EXPLORING PARTY FROM THE COUNTRY BETWEEN THE MISSOURI AND YELLOWSTONE

[Bismarck (Dakota) Special Aug 24]

Hon D Morrison John Ross Gen Rosser and party under military escort, sent out recently by the Northern Pacific Railroad to inspect their lands for the first time between the Missouri and the Yellowstone returned this afternoon They were all surprised and report the country a great deal better than that between Bismarck and Fargo The so called bad lands they found covered with the richest pasture and the whole stretch of a hundred miles well watered with plenty of good coal and considerable timber The coal fields are apparently inexhaustible

Mr Morrison who will make up a detailed report to the directors of the Northern Pacific will advise the company not to give up their [illegible] the Yellowstone [illegible] building the [illegible] President Wright has had in contemplation his scheme for extending [illegible] the Yellowstone [illegible] the five million acres of land [illegible] the road

[illegible] against the Statesmen

[illegible]

Jeff Davis is warned by the New York [illegible] that it [illegible] put new [illegible] into old bottles

OREGON

Jacksonville [illegible] Mr Jackson is now training Jay Bird's fine stallion Altamont and also one of his 3 year old fillies These animals will be taken to the Nevada state fair which will be held at Reno next month and entered in the trotting races

A Butte creek letter says that John Morrisy who has a band of [illegible]000 sheep on the shires belonging to Cunningham Disosway C Morse in that vicinity had taken them and left the country Mr Morse in company with Deputy Sheriff Taylor started in pursuit

An old man named Wilson of lower Walla Walla valley is lost He was out in the mountains with his son in law gathering berries The latter took the horse around by a circuitous route while the former started over the mountain alone and has not since been heard of Ten days had elapsed and every effort to find him was unavailing

Some days ago James Keeney of Willow creek Baker county was found dead near his dwelling house It is supposed he was shot on Thursday and that the pistol dropped from the horn of the saddle and was accidentally discharged with the above fatal result Mr Keeney was about 70 years of age and came to Oregon in 1846 He lived in Linn county

Before the Indian raid Messrs Murphy had in John Day valley a band of 3 000 sheep which were said to have been among the best in Oregon, and were estimated to be worth in the neighborhood of $10,000 Of these but 200 are left the rest having been killed by the Indians In one pile there was not less than 600 some with their throats cut others with their legs cut off at the knees, and others with their ham strings cut P R Murphy one of the owners was among the first killed in Umatilla county A herder by the name of Gentry was killed at the same time P R Murphy leaves a wife and three children in San Francisco

The *Astorian* says Hon John F Caples was chosen district attorney for the fourth judicial district at the last election and is in attendance at the present session of the circuit court for Clatsop county Yesterday he made a pleading in behalf of this public before the jury having Gustav Neuman's case in hand which stamped him every inch a man and entitles him to wear the honors of one of the ablest attorneys in the land We were pleased to see Mr Caples making the effort which he did in this case If such scamps as Neuman can burn cities and then escape just punishment for their crimes upon the dodge of insanity or other trivial reasons how long would it be until whole communities would be sacrificed as this fellow Neuman would have sacrificed Astoria

BEN BUTLER AND THE DEMOCRATS

HIS PRIVATE TALK TO THE MAINE GREENBACKERS HE WANTS A SOLID DEMOCRATIC CONGRESSIONAL DELEGATION FROM MASSACHUSETTS

[From the New York Tribune]

Butler's private talk in Maine was even more edifying than his public utterances He told a choice circle of faithful Greenbackers who gathered about him for inspiration at the hotel that they must combine with the Democrats to defeat the Republicans "You must bring the Democrats in" why not When in a few weeks from now I will be running for governor of Massachusetts, the Democratic leaders would vote for Talbot if they dared, but they don't dare to do it I hope they will be as frightened when it comes election time as they are now Yes sir, I have told my friends that I am willing to do anything under heaven to bring in a set of Democratic congressmen from Massachusetts I want an entire delegation My friends say 'But general, how is this, isn't this a strange course?' Not at all The Democratic delegation six in all would be no more than six huckleberries in a pudding They wouldn't leaven the lot but a Republican delegation would be a power a strong party would be behind them The administration, such as it is would be behind them and I am resolved to bring in Democrats" This is an explicit declaration and it shows that Butler's plan is to get if possible the Democratic nomination for governor of Massachusetts In the light of this remark it is easy to credit the rumor that the Democratic state committee of Massachusetts is in favor of his nomination The most interesting remark of Butler's in Maine was his reply to a remark that he ought to be the next president "No great man can be elected president of the United States Our presidents are made by a chapter of accidents A village politician like Hayes may get in The nearer a great man gets to that office the further off he is" The decree that no great man can be president forcibly explains Butler's hope that he may slip in

Mr. Gladstone's Position.

[From the Philadelphia Times]

Mr Gladstone has a reputation and what is more a character that will pass unscathed through the fires of criticism and denunciation to which he is now exposed and he is a man of the sort who are quite willing to suffer martyrdom in behalf of principle He is now catching it on all sides for daring to stand up before the people of England and tell them the truth which is so unpalatable but which must sooner or later settle into their consciences despite the glamour which Lord Beaconsfield has cast over the achievements of himself and colleague at Berlin It is not of trifling significance that the judgment of the best friends of England abroad, the kind of cotemporary opinion which is most apt to be correct is in favor of the Gladstone rather than the Beaconsfield view of the present situation and the means by which it was brought about The judgment of intelligent foreign cotemporaries is generally the anticipated verdict of posterity Knowing this Mr Gladstone may listen without trepidation even to the ugly mutterings of the Thunderer

Texas Republicans Gone Over to the Greenbackers.

[Galveston Special August 13]

A special to the *News* from Austin says that the expectation of any endeavor of the Republicans in the state at large to run candidates independent of the Democrats and Greenbackers appears groundless The head men of the old Republican party of Texas are going into the new party and taking their followers It is well known here that on the 9th of this month Gen Phillips the federal marshal, was in Washington before the congressional Republican committee, urging the Republican committee to support Washington Jones for congress in this district Money is being freely used for the purpose of defeating the Democracy and it could hardly come from the new party The Republicans are using the Greenbackers and with their great object in view can well abandon their name and organization

A PROMPT AND DECISIVE ANSWER

[illegible] Aug [illegible]

TO THE EDITOR OF THE OREGONIAN

My attention has been called to the following which appeared in your paper of yesterday

J I Cummings writes us from Grant county complaining that Gen Brown's command took from his place five government horses that Col Bernard left there and shot others that were crippled and had sore backs Cummings says the men seemed to want to get all I had I was in one corral trying to keep them from stealing while they were in another corral getting away with horses I followed them to Bear valley and got three of them back and one they killed by hard riding The letter is very long but this is the substance It will be in order for Gen Brown to respond

Permit me to say that the above statement is unqualifiedly false My command did not take five horses from Cummings He gave Major Herren and Captain Humphrey permission to take three government horses, as some of ours were so jaded as to be unfit for travel and after the command arrived at Bear valley Mr C came on and claimed the horses, and they were promptly turned over to him leaving three of my men substantially dismounted—at least they would have been had we not broken and used some Indian ponies which had been captured Captain Humphrey left one of our horses with him and when I sent back after the animal Mr C informed the officer that he could not produce it

There was no crippled horse shot down by my command and while many of the animals were almost killed by hard riding we never lost a single one except one pack mule that was snagged while we were going through a brushy canyon on a forced march

Cummings says he was in one corral trying to keep them from stealing while they were in another corral getting away with his horses I was not at his ranch in person when the command left there, but I am informed by Captain Humphrey that this statement is infamously false

Mr Cummings did not lose a single thing by us, but on the contrary we scoured the country in all directions in the vicinity of his ranch and drove the Indians out of his neighborhood thus affording protection and security not only to him but to all the citizens of John Day valley—to which statement all reliable people in Canyon City and Grant county will testify

To attest the truthfulness of what I state every man in my command who could be reached in time hereto appends his name

ABSURD PROHIBITIONS

It has often been complained that the constitution of our state is a narrow affair limiting on every side the powers of the legislature to undertake measures for the public benefit, and thus shackling all public enterprise If there be anything in this criticism what shall be said of the legislature itself which has imposed additional restrictions Since 1862 there has been on the statute book a law which declares that no corporation formed for the purpose of navigating any stream or other water of this state nor any stockholder in such corporation shall ever take or hold any stock or interest directly or indirectly in any railway macadamized road plank road, clay road canal or bridge except such road as may be necessary across any portages on their line of navigation Now this law never was and never can be of any possible use to the country It was enacted for private not public objects and has stood ever since mainly because the attention of the legislature has never been called to its absurdity If the state has anything to gain by prohibiting those of its citizens most able and most likely to engage in railroad building from employing their energies and resources in such undertakings, nobody has yet been able to see it Stock companies with large capital are engaged in transportation on our principal rivers yet these corporations as such and all persons who hold stock in them, are prohibited by law from building and operating, or taking any interest whatever in railroads Is this the way to develop a country? Capital certainly should have no special privileges But as certainly, if a community desires industrial and commercial progress, capital should not be prohibited from any field, and especially from the one in which, confessedly it is most wanted Different parts of the state need for their local development a system of railways connecting with the navigable streams Several railways of this class have been projected, some connecting with the Willamette and others with the Columbia river. But the law strictly forbids any person who holds stock in any steamboat company to join in such undertakings and the state thus deliberately deprives itself of the benefits it would receive from investments in the line most wanted, and forces capital either to lie idle, practice usury, or leave the state altogether. Many, perhaps, will be surprised that any intelligent community has such a law Members of the legislature who may be incredulous and would like to see it will find it on page 528 of the Oregon code

INSTITUTE FOR DEAF MUTES

Rev. P. S Knight, principal of the institute for the deaf and dumb, has submitted to the state superintendent of public instruction his biennial report We find a list of thirty one pupils under instruction, of whom a few are from Washington Territory, paid for by that territory in pursuance of law From the report we learn that the total amount expended for support of the school during the last two years is $11,543 79, which gives $5,771 89 as the expenditure for one year Comparison is made of the cost with that of like schools in [illegible] other states. In New York there are 490 pupils, costing $139,592, an average of $284 88 for each. In Ohio the average cost for each pupil is $192 46; in Connecticut, $247 79, and in Minnesota $304 34 In Oregon the average cost is $185 22 The financial affairs of the Oregon institute are in the hands of the state board of education, and for details of expenditure reference is made to the report of the state treasurer

The principal urges the want of buildings as a most pressing need to insure the regularity, permanence and success of the school. He says that the amount expended for rents during the last eight years would have provided better buildings than the school has ever occupied Several other recommendations are made, looking to definite and permanent organization of the institution

Mr Knight has made the education of this unfortunate class of our fellow creatures one of his special studies for a number of years past, He is well informed as to their capacity to receive instruction and the methods of imparting it. And in his report he treats the subject as one who not only has deep sympathy with a class who, without this special instruction, will be denied forever all intelligent communication with the outward world and all development within themselves but also as one who has a clear conviction of the responsibilities of society towards those whose lives, in spite of their misfortune may be made helpful and even joyous both to themselves and to others Study of statistics leads to the conclusion that we shall have of this class of persons about one to every twelve or fifteen hundred of our population Mr Knight, in closing his report, submits to the board of education and to the legislative assembly this question. Can this sovereign state of the northwest, entering now upon a new era of prosperity and having before it a future so full of promise longer withhold the needful appropriations to make this institution at once a credit to our people at large and a sure means of enlightenment to that deserving class to whom the ordinary means are unavailable?'

BUTLER FOR GOVERNOR

Massachusetts is in commotion in consequence of Butler's avowed design to be a candidate for governor Parties are in such condition in Massachusetts that his effort really has promise of success. But the pride of the state is touched by a fact which is considered very much a reproach and disgrace Butler is thoroughly detested by the respectable portion of both parties of Massachusetts but the Democrats are a hopeless minority and there are signs that many, perhaps most of them would vote for Butler by way of a grand lark, as the Boston *Herald* expresses it, and just for the fun of seeing things shaken up for a single term Butler has betaken himself to the cave of Adullam and is there trying to rally and organize all the rabble rout of the country into a new party It matters not that the company will be mainly such as Falstaff w[illegible] have b[illegible] to march through Coventry with [illegible] Butler is a demagogue compared with whom other demagogues are about like our stu[illegible] in proportion to the great tree ferns of the carboniferous period A bloated capitalist who has amassed five million dollars by the very methods against which the movement he now leads is a pretended protest is indeed a most fit man to make himself the national champion of the great class who complain of "oppression and want government to take care of them In one aspect Butler might be made to point a moral He would be a most excellent subject for the co[illegible] His estate would divide well and yield handsomely. And men of his stamp have heretofore in the mutations of human history been known to find it necessary to fly from knives which their own hands have sharpened against their country and laws

USEFUL FIELD FOR CHEAP LABOR

Much land in Yamhill and other counties has been grubbed by Chinese during the last year or two and farmers are making further arrangements for like work with Chinese contractors Here is a field in which cheap labor may be employed for many years to come with excellent results No farmer can afford to employ white men to grub his land If he cannot get Chinese cheap labor his land must lie waste with the brush encroaching year by year upon his grain fields and pastures But with cheap labor he is able to clear his land and bring it into cultivation and it becomes a source of steady revenue thereafter Almost every farmer of Western Oregon is interested in Chinese labor to the extent of finding means to clear patches of land in which the 'grubs' are making rapid encroachment and there is besides a large extent of timbered land which can be cleared only by the cheap labor which the Chinese afford For this and similar work these people may become a great general advantage to the country Laboring in these vocations they deprive no white man of employment On the contrary they open new avenues of employment for our own people, and increase both public and private wealth by bringing into cultivation lands which will yield annual crops and return steady income This is one important phase of the Chinese labor question as presented in Oregon to-day It is better to look at facts like these and make the most of them than to complain because the Chinese are doing for us what we want done but would never do for ourselves

---

It is remarked that Phonograph Edison's head appears to breed inventions as a hotbed germinates seeds On his Pacific coast trip he stopped a day or two at the mines of Nevada and now, having returned to the east, he drops all work on fifteen or twenty half perfected Inventions in order to fix up a little electrical machine which will enable the miner to find out how much ore there is in a mine, where it lies, its direction and the point where its croppings may be looked for —results at present attainable only by means of running long tunnels, sinking deep shafts and boring here and there with a diamond drill We can easily forgive Edison's conceit that he is the Prospero of modern science and that electricity is his Ariel if he will only go on and show us how to dispense with the Caliban of drudgery

The St Louis *Globe-Democrat* sees another source of danger in permitting or encouraging Chinese immigration and that is the evil, sooner or later, sure to develop itself of amalgamation The whites and the Mongolians it thinks, should never mix in marriage owing to a multitude of physiological and other reasons It rather regrets the necessity of establishing a Chinese embassy here, as it will tend to familiarize, to an extent greater than at present, the two races All of which is bosh and nonsense The barriers against amalgamation of the two races are so nearly insuperable that there can be no danger that they will ever be blended in any noticeable degree

The Chicago *Tribune* prints the manifest of the cargo of the lost steamship *Idaho*, for the purpose of giving some idea of what America is now contributing to the old world Her cargo comprised 141 packages of agricultural implements, 77,000 pounds of bacon, 98 packages of clocks, 17 000 bushels of corn, 1,000 bales of cotton 94 bales of hops, 58 horses 200 tons of fresh meat, 75 tierces of salt meat 2 cases of machinery 5 pianos, 12 kegs of ink, 25,000 bushels of wheat, 12 packages of manufactured wool This was the bulk of the ship's cargo but did not embrace the entire bill. It is sufficiently varied to show to what an almost unlimited extent the new world is contributing to the necessities of the old

Strahan, they say, begins to ' loom It is reported that the Linn delegation is behind him As this is the strongest Democratic delegation in the legislature it is able to give any favorite son quite a boost If the contest shall be mainly between Strahan and Slater there would seem to be no reason why anybody should be troubled about making a choice As a supporter of humbug financial theories each is worse than the other and for the rest both can declare "We are on all sides of all questions'

Thurman's Surrender and Fall.

[From the Philadelphia Record Ind]

Of all the public men in the United States who have made a surrender of principle in the face of the popular cry for more paper money Senator Thurman of Ohio, stands highest in public estimation His remarkable ability as a debater in congress and his undoubted attainments in the craft of statesmanship are conceded by friend and foe For years his attitude on the financial question was so conservative that it secured for him the apparent antipathy of the soft money Democrats in his own state at the same time that it advanced him in a national reputation and in the confidence of judicious and thinking men If he had stood by his guns no man had a fairer prospect of getting into the White House than Mr Thurman But in an evil hour he seems to have become intoxicated with the same delusive theories that shipwrecked the presidential prospects of Mr Pendleton He has committed his fortunes to the paper shell elaborated by his opponents and must stand the hazard of the venture

Falling Rapidly into Line

[From the Philadelphia Times]

The boys are falling into line behind Grant so rapidly now that it is difficult to keep the run of them One of the latest is Senator Mitchell of Oregon who believes that 'if the Republicans were compelled to go into convention to morrow Grant's nomination would be carried by acclamation" Mr Mitchell doesn't seem to comprehend that Grantism as represented by Mitchell was thoroughly laid out in Oregon about two months ago and yet such is the solemn fact

WHERE THERE IS SO MUCH SMOKE

THERE MUST BE

SOME CIGARS!

A Short Card with a Long Introduction

I HAVE FOR A LONG TIME CONTEMPLATED a change in the style of my business establishing in part not only the 10 cent and 15 cent system which is simply a just one to seller and buyer but also introducing a costlier (to me) and better class of goods I cannot do this however without a fixed determination on my part to sell for cash only It is a rule which I must carry out in order to give my patrons the benefit resulting from such a course Every business man will understand this and if not upheld in it will become necessary for me to re establish the [illegible] very unsatisfactory [illegible] quality of goods which while superior to that generally so I will have more percentage [illegible] and delays inevitably resulting from [illegible]

Intending to carry out the [illegible] clubs and anticipating as is necessary [illegible] our high cost goods a greatly increased patronage I have [illegible] cigars [illegible] especially imported Havanas sufficiently large to meet the *demand*

To bring to this market a big assortment of *Havana Cigars* the genuineness of which I am ready to guarantee involves a considerable risk and outlay of money Goods of this class in consequence of their sensibility to atmospheric changes must be sold rapidly in order that invoices may be often renewed and the stock on hand be always fresh My facilities for supplying this market are most perfect and I need but to be seconded in my efforts by a public to whose liberality and long continued patronage I am indebted for my success in business In the future I hope to keep my faith with them as I am confident I have in the past Though my purchases extend to several importing houses I am the authorized agent of

MICHALITSCHKE BROTHERS

AND

AD LEWIS & CO,

whose reputation as dispensers of imported cigars extends over this entire coast

As I propose to *imitate* no man but be always a *leader* I shall in spite of extremely small profits make a specialty of imported cigars selling them at 15 cents apiece and upwards

I shall continually increase the assortment deal them out of the original packages and treat all patrons alike caring only to know that for every cigar that leaves the store I have received the coin I hope my friends and patrons will not ask me to violate a rule in which all things considered, the odds are so much in their favor To the trade and box customers rates will be made in accordance with amount purchased and terms agreed upon My 10 cent cigars will also be of improved quality New York cigars—Kerbs & Spiess Lichtensteins and Geo P Lies manufactures will be sold 3 to 7 for 25 cents and Seed cigars still cheaper

Th[illegible] PHONOGRAPH HAS ARRIVED—At last [illegible] machine has arrived We [illegible] Edison's phonograph It was [illegible] by Mr [illegible] the gentlemanly telegraphic [illegible] in this city The operator [illegible] phonograph is under the personal charge of [illegible] a young gentleman who [illegible] San Francisco The instrument [illegible] and yesterday was [illegible] at Masonic hall A number of [illegible] persons were present during the afternoon to [illegible] and hear the talking machine The phonograph repeated with wonderful [illegible] a great many things which were spoken to it To attempt to describe the phonograph in this connection is superfluous It is certainly one of the most [illegible] constructed and operated instruments in the world for accomplishing such truly marvelous results Wonderful" is the only word that adequately express our idea of the phonograph No one should fail to see it Until further notice it will be on exhibition at Masonic hall Of course every body will go and see and hear for themselves

THE B[illegible] MINES—Mr S. W Crane has just returned from these mines, where he went a short time ago in company with several gentlemen from this city on an inspecting tour From him it is learned that he went down the old shaft a distance of sixty feet and took out a quantity of quartz which assayed all the way from $22 to $5 000 per ton Two men are now at work repairing the quartz mill belonging to Joseph Knott of Portland, and we understand that a company is now endeavoring to lease the mill and mine. In case the necessary arrangements are perfected, a force of hands will immediately be put to work and a drift run in to intersect the Excelsior lead five hundred feet below the shaft. The quartz in this ledge has always assayed well, and it has been a matter of wonder to us that it has so long been permitted to remain idle

BOARD OF EQUALIZATION.—As required by law the board of equalization met yesterday in the office of the county clerk. The board consists of S W Rice, county judge, O M Barnard assessor and A. E. Borthwick, who represents Mr Jas. A Smith in the board during the absence of that gentleman from the state The work of examining roll and equalizing the taxes has commenced in earnest and will be crowded through to completion It will probably require a week at least to accomplish the work Persons who desire any modifications made to their assessment should not omit to call on the board and make the proper representations before it is too late

THE WRONG MAN AGAIN—A German named Jacob Laela was arrested some distance below St Helens by one of the scouters and brought to this city yesterday afternoon He was supposed to be one of the O'Shea robbers, but on being taken to the city jail was readily identified It was another 'flash in the pan' Laela was set at liberty soon after he was brought to the jail The affair created intense excitement, and an immense crowd gathered about the jail under the impression that one of the robbers had been captured When it was known that the wrong man was caught, there was a feeling of great disappointment.

PRISONERS—Sheriff Twilight and Chief of Police Barry came up from Astoria last evening having in charge three persons who were convicted at the last term of court. They are Nicholas Florentine, an Italian fisherman, who goes to the penitentiary for one year on a charge of larceny, H. G. Neuman, for three years on a charge of arson. Neuman was a baker and gave as a reason for the act that if he burned out Mrs Binder there would be one bakery less and business with him would improve. He was greatly exercised because Mrs B had declined his offer of marriage And Ah Sing, for one year, on a charge of larceny

TEACHER RESIGNED—Miss Sadie Hill, who has been employed for several years as a teacher in the grammar department in Central school, has recently tendered her resignation which has been accepted by the board of directors Mrs E. P Fraser, a lady lately from the east, has been appointed to fill the vacancy She has had nearly fifteen years' experience in teaching, and for six years was principal of one of the leading schools in Bloomington Illinois The appointment is said to be an excellent one.

ALMOST DROWNED.—A man who came out in a small boat to the *Bonita* with mail, at a point some miles above Astoria, was run into and the boat filled, giving the occupant a thorough ducking Fortunately he caught a rope and was hauled on board. His boat was emptied of water and he got in in a much relieved state of mind and rowed off. The accident was due to his carelessness.

AGROUND—At noon yesterday the *Bonita* passed the *Great Republic* aground at the foot of Walker's island, seven miles below Rainier No signal was given for a pull and when the steamer had proceeded some distance the larboard wheel of the *Republic* was in motion, but the effort seemed to be futile The ebb tide at 3 o clock probably floated her off.

PASSENGERS—Among the passengers by the Astoria boat last evening were A. A Cohn Jacob Kahn J M and E G Hughes and ladies from the seaside, Mrs Geo Herrall from Unity J O Hanthorn, Geo T Myers, Jas Dowling, Mr Humason.

MET AND ADJOURNED—The United States circuit court met yesterday morning and adjourned over until this morning without transacting any business The United States district court will also meet this morning

FROM UNITY The *Westport*, Capt Sam, Douglas will leave Unity to day with nearly if not all the Portlanders who remained there over Sunday These pleasure seekers will reach here during the week.

THE V[illegible]—This boat passed Rainier at 2 o clock yesterday with a large raft of logs in tow

TUESDAY MORNING AUGUST 27 1878

CITY.

The Phonograph has Arrived.—At last that wonderful machine has arrived. We mean one of Edison's phonographs. It was brought to this city a short time ago by Mr James Guild the gentlemanly telegraphic operator for the O S N Co in this city. The phonograph is under the personal charge of Mr Linderman, a young gentleman who came from San Francisco. The instrument was put in good condition and yesterday was on exhibition at Masonic hall. A number of persons were present during the afternoon to examine and hear the "talking machine." The phonograph repeated with wonderful accuracy and distinctness a great many things which were spoken to it. To attempt to describe the phonograph in this connection is superfluous. It is certainly one of the most simply constructed and operated instruments in the world for accomplishing such truly marvelous results. "Wonderful" is the only word which can adequately express our idea of the phonograph. No one should fail to see it. Until further notice it will be on exhibition at Masonic hall. Of course every body will go and see and hear for themselves.

The Bohemia Mines.—Mr S W Crane has just returned from these mines, where he went a short time ago in company with several gentlemen from this city on an inspecting tour. From him it is learned that he went down the old shaft a distance of sixty feet and took out a quantity of quartz which assayed all the way from $22 to $5 000 per ton. Two men are now at work repairing the quartz mill belonging to Joseph Knott of Portland, and we understand that a company is now endeavoring to lease the mill and mine. In case the necessary arrangements are perfected, a force of hands will immediately be put to work and a drift run in to intersect the Excelsior lead five hundred feet below the shaft. The quartz in this ledge has always assayed well and it has been a matter of wonder to us that it has so long been permitted to remain idle.

Board of Equalization.—As required by law, the board of equalization met yesterday in the office of the county clerk. The board consists of S. W. Rice, county judge, O M Barnard, assessor, and A. E Borthwick, who represents Mr Jas A Smith in the board during the absence of that gentleman from the state. The work of examining roll and equalizing the taxes has commenced in earnest and will be crowded through to completion. It will probably require a week at least to accomplish the work. Persons who desire any modifications made to their assessment should not omit to call on the board and make the proper representations before it is too late.

The Wrong Man Again.—A German named Jacob Laela was arrested some distance below St Helens by one of the scouters and brought to this city yesterday afternoon. He was supposed to be one of the O Shea robbers, but on being taken to the city jail was readily identified. It was another "flash in the pan." Laela was set at liberty soon after he was brought to the jail. The affair created intense excitement and an immense crowd gathered about the jail under the impression that one of the robbers had been captured. When it was known that the wrong man was caught, there was a feeling of great disappointment.

Prisoners.—Sheriff Twilight and Chief of Police Barry came up from Astoria last evening, having in charge three persons who were convicted at the last term of court. They are Nicholas Plorantine, an Italian fisherman who goes to the penitentiary for one year on a charge of larceny, H. G Neuman, for three years, on a charge of arson. Neuman was a baker, and gave as a reason for the act that if he burned out Mrs Binder there would be one bakery less and business with him would improve. He was greatly exercised because Mrs B had declined his offer of marriage. And all Sing, for one year, on a charge of larceny.

Teacher Resigned.—Miss Sadie Hill, who has been employed for several years as a teacher in the grammar department in Central school, has recently tendered her resignation, which has been accepted by the board of directors. Mrs. E. P Fraser, a lady lately from the east, has been appointed to fill the vacancy. She has had nearly fifteen years experience in teaching, and for six years was principal of one of the leading schools in Bloomington Illinois. The appointment is said to be an excellent one.

Almost Drowned.—A man who came out in a small boat to the *Bonita* with mail, at a point some miles above Astoria, was run into and the boat filled, giving the occupant a thorough ducking. Fortunately he caught a rope and was hauled on board. His boat was emptied of water and he got in in a much relieved state of mind and rowed off. The accident was due to his carelessness.

Aground.—At noon yesterday the *Bonita* passed the *Great Republic* aground at the foot of Walker's island, seven miles below Rainier. No signal was given for a pull and when the steamer had proceeded some distance the larboard wheel of the *Republic* was in motion but the effort seemed to be futile. The ebb tide at 3 o'clock probably floated her off.

Passengers.—Among the passengers by the Astoria boat last evening were A. A Cohn, Jacob Kahn, J. M. and E G Hughes and ladies from the seaside, Mrs Geo Herrall from Unity, J. O Hanthorn, Geo T Myers, Jas. Dowling, Mr Humason.

Met and Adjourned.—The United States circuit court met yesterday morning and adjourned over until this morning without transacting any business. The United States district court will also meet this morning.

From Unity.—The *Westport*, Capt Sam. Douglas, will leave Unity to day with nearly if not all, the Portlanders who remained there over Sunday. These pleasure seekers will reach here during the week.

The "Wonder."—This boat passed Rainier at 2 o'clock yesterday, with a large raft of logs in tow.

AMUSEMENTS.

Benefit.—This (Tuesday) evening a performance will be given at Turn Verein Hall the proceeds of which will be donated to the family of the unfortunate lad Louis Joseph who was shot and instantly killed last week. The family is said to be in very limited circumstances, and this is a case of deserving charity. A crowded house may be confidently expected. Mr J. M. Ward the members of his company and the Northwestern Band have kindly volunteered their services on the occasion. The hall company have also generously tendered the use of the hall free of charge. A very pleasant and entertaining programme will be presented. The performance will consist of The Secret, or The Jealous Wife, in which the entire company will appear. Following this will be an olio in which Mr Ward, Miss Carrie Clarke and Mr Southerland will assist. The entertainment will conclude with Mr Ward's specialty of "The Widow's Stratagem." A large number of tickets have been sold, and a substantial sum, it is hoped, will be realized.

A CHALLENGE.

Portland August 26 1878

There having been a great deal said recently in the city papers by interested parties to the effect that the Sil by fire engines are not efficient for fire service, I propose that the question be settled so far as the engines in use in this department are concerned, as follows. I hereby challenge Willamette No 1 to friendly contest with Multnomah No 2, with a view to test their relative value as fire apparatus, the conditions of the trial to be such as shall be imposed by a committee of five competent men, two of whom shall be selected by myself, two by any parties representing No 1 and the fifth by the first four.

I hope this will be accepted. I do not ask the advantages of a test as against a single pump but am willing to test the double pump.

DOWN THE COLUMBIA

ASTORIA AND VICINITY

Although the summer season has almost come to a close the present time affords a pleasure seeker an opportunity to while away several days pleasantly at Astoria, Clatsop, Cape Disappointment, [illegible] or Oysterville.

With this end in view your r[illegible] took a hurried leave of the metropolis and hied away to the former place, calculating to take in a breath of old ocean if nothing better.

On Friday last an excellent opportunity was offered to spend almost an entire day between the Cape and Unity and early in the morning we took passage on the tug *Edith*, Capt Archie Pease (son of Capt Geo Pease) commander. On our way we stopped at Fort Stevens thence taking a direct course for the Cape where we went ashore and proceeded without delay to the famous lighthouse through which we were politely shown by one of the keepers.

During our stay the ship *City of Glasgow* was sighted and the tug *Astoria* then lying inside the Cape immediately steamed out and in a short time was at the side of the vessel ready to tow the new comer through the south channel but the officer of the latter declined the offer and sailed in.

The day was not clear and a good view of the surroundings could not be had. Fogs have been the rule for the past few days.

Fort Canby at present commanded by Major Stewart is very quiet. Scarcely a corporal's guard being stationed at the post. The Major a real social gentleman made the stay of our party very agreeable.

Being obliged to return to Astoria our stay at Unity was necessarily brief and we only had time to say a few words to friends at the wharf.

At the resort were the families of Dr Barber, G Shindler, F J Northrup, Rev J H Acton, Dr Finck and others—in all some thirty persons. Quite a number came up on the tug and are now relating their experience at home. Although the trip over was somewhat rough no cases of seasickness were reported.

The season at the seaside has virtually closed, Capt Flanders family being the only people there on Sunday so we learned.

ASTORIA ETC

Court has adjourned after a brief session. A number of Portland attorneys were in attendance. Several candidates were booked for terms varying in length at the penitentiary.

The barkentine *Jane A. Falkinburg* is lying here awaiting repairs to the mainmast. She will load with stave bolts for Honolulu.

Fires are comfortable in the evenings and overcoats acceptable—particularly to those from inland.

Considerable quantities of salmon in cases are stored at the wharves. The *Oregon* took over 20 000 cases and the *Great Republic* will take on an equal amount. The canneries have about cleared out the stock put up and sent them to this point for shipment.

The improvements here within the past two years have been remarkable and that which pleases the citizens most is the long roadway connecting upper and lower Astoria. A stranger is sure to hear of it. Buildings have risen with wonderful rapidity, all of which are frame and in the main of a substantial character.

Business in every line is quite overdone and we learn of several who will close up and seek other localities.

There are some forty saloons a large number the reader will say for a town of scarcely four thousand inhabitants. We will not attempt to give the number of hotels and boarding houses as they are to be found as readily as saloons and many of both are of the very lowest order while the few of the better class will equal if not surpass those in Portland or any place in Oregon. Mrs Arrigoni who is well known in Portland, talks seriously of locating in the metropolis. She knows how to keep a hotel. The Occident is enjoying the largest patronage.

Through the courtesy of Mr Curtis J Trenchard who will qualify Sept 1st as chief engineer of the Portland fire department we were permitted to see Rescue No 2's new Silsby second class engine. It is finished first class and is universally admired. The company has a membership of 40. Astoria No 1 has 52 members. This company runs Multnomah's old hand engine. The Alert hook and ladder company have about finished a new truck. They have 25 members. Rescue's quarters are new plain and neat throughout. The water supply is unsurpassed —*at high water*.

A bell tower rising sixty feet was recently erected on which is placed the bell made at Portland and presented to the Astoria fire department by the ladies of this city who held a fair to raise the funds. Mr Peter Wilhelm's fountain is located at its base, and it was just like Peter to present it to the city.

A party which includes Messrs D W Taylor and Tabor of Portland are surveying the bar on the tug *Gen Canby*.

A foot race took place on Saturday in full view of the postoffice and as the competitors wore their garments rather abbreviated staid citizens were undoubtedly greatly shocked at the spectacle. The amusement served to kill time of many persons who had little else to do.

We understand the land back of the town and extending to Young's river a distance of about two miles has been to a great extent laid off into town lots and grades established. Evidently Astorians look well ahead. As it is a succession of hills they may well do so.

PERSONAL

Mr J C Disosway of Pendleton is in Astoria in poor health. The change is doing him good.

Mr I S Larsen, formerly of your city who opened a grocery here about three years ago on a small scale has now the largest establishment of the kind in the city and does considerable jobbing. We congratulate you Esper.

The latest arrivals from Portland were P C Schuyler Esq and A G Cunningham Esq. Mrs Capt Pease and daughter Miss Carrie Oppenheimer and Miss Cathie Stewart of Portland, Miss Alice Bell and Miss Fannie Brown, of Salem, are sojourning in Astoria.

Purser Noyes of the *Bonita* is lying off at Astoria on account of illness.

It would be useless to attempt to give a list of Portlanders engaged in business or employed at Astoria as they comprise a large share of the population.

There seems to be a lack of attention on the part of Astorians to give strangers information about pleasure boats as they seemingly desire to detain visitors in the town as much as possible. Capt Strang was figuring to get up an excursion over the bar and afterwards to take an hour's fishing in Baker's Bay.

And we feel decidedly improved in health and spirits after five days absence from the metropolis. Therefore we propose to get even with Mr [illegible]

Abell says he is fully satisfied with the reception he has met with. His photographic work needs no praise as it speaks for itself. See the new display.

Spiritualism.—At 111 First street room 1 Dr Walter Hyde healing and developing medium. Free consultations daily. Medium's seance every evening at 7 o'clock.

Received [illegible] Ladies Underwear, Ladies Chemises and Drawers for 75c each at Mrs Chas Fichnor's Portland Ogn.

HAVE WE ANOTHER SECT

To the Editor of the Oregonian:

An [illegible] of the sects recently ad[illegible] Aug [illegible] an article with the [illegible] cap[illegible] the quotes from The Oregonian [illegible] by the subscriber the previous evening and thereupon calls upon him to answer several questions. Were it not that the article reflects seriously upon what the writer designates a human institution known as the Y M C A I should let it pass. Justice to that Christian and truly Catholic institution [illegible] my apology for this reply. Categorical answers are given simply to economize space. The following are the important questions and their order.

1st. We would like to enquire into what this infant was baptized. Answer: According to St Paul she was baptized into Christ. (See Galatians [illegible])

2d. Has it (she) any place in the family of God? Answer: According to the highest authority. Of such is the kingdom of God. (See Luke 18 16 et al)

3d. Suppose [illegible] called upon to speak [illegible] what should say. By Chaplain Stubbs? Answer: I should not object. If however I should answer in the language of the New Testament as understood by the oldest Protestant church within the present bounds of the United States she would correctly say by Bishop Stubbs.

4th. But where? In what church? Answer: In Portland Oregon and in the church of the first born which are enrolled in heaven. (See Heb 12 23.) In the days of St Paul the term church was used in another sense and was a church in the house of Nymphas (Colossians 4 15.) Another in the house of "our dearly beloved Philemon" (Philemon verse 2.) And yet another in the house of Aquila and Priscilla (1 Cor 16 19.) Probably in either of those houses I should have been permitted to administer baptism, nor would any of the brethren considered me guilty of establishing another sect. Justified by these precedents I performed the ceremony in the rooms of the Y M C A with the explicit understanding on the part of the parents of the child that, for the purposes of "church order" her name should be enrolled on the records of the Congregational church in this city of which Rev J A Cruzan is pastor, and of which church I am a member being also a duly accredited bishop, elder or minister of the Congregational Association of Ministers of Oregon and Washington territory.

A due regard to the conscientious convictions of God's people will justify a few words additional and explanatory. In 1856 I was ordained an elder by the imposition of the hands of Bishop Baker and I have sustained that relation for nearly twenty two years lacking only a few weeks. It will be perceived therefore that I was admitted into holy orders so called by one whose episcopal authority came by regular succession from apostolic times through John Wesley a distinguished presbyter in the Episcopal church who insisted that the terms elder and bishop in the New Testament are used interchangeably. If therefore any aroma of spiritual sanctity can be conveyed through prelatical channels or any investiture of divine authority can be conferred by ecclesiastical manipulation so as to exempt a church officer from the brand of schismatic, then holding in my possession at the time my ordination parchments I had both and was fully authorized to comply with the pious request of the parents, who sincerely desired to consecrate their little one to God, and sacredly promised to "train her up in the nurture and admonition of the Lord." I do not pretend, however, to have officiated as an elder in the Methodist Episcopal church—my ecclesiastical views having undergone a radical change—much less as the chaplain of the Y. M. C. A. These facts the writer of the above named article, who signs himself "Observer," would have known had he been an observer. To claim that he was present at, and hence an observer of the administration of the ordinance of baptism on that occasion, would be to charge him with a malicious misrepresentation of facts; to deny that he was present and therefore did not observe the proceedings is simply to charge him with using an incorrect signature. This latter is the more charitable, and by me is deemed preferable. As therefore he wrote in ignorance of the facts as stated at the time by me I will here announce to the public that as a Congregational clergyman I baptized this child at the time and in the place indicated. I did so, (1) because the father asked me to do so. (2) because they were entire strangers in the city (3) because I understood the father to say that he was to leave the city the next day (4) because he was to locate remote from any church privileges (5) because there was no church edifice open for public worship that evening, and (6) because the only alternative seemed to be to let these strangers pass through our midst seeking in vain for the services desired, or to render them at the hotel where they were sojourning or to require them to go all the way up town to my residence corner of Seventh and Main streets, or to ask permission of the Y M C A to administer the rite at the Wednesday evening service for prayer held by christians of the various churches of the city. The preference of the parents (not my preference) decided on the latter and there the child was baptized with the understanding on the part of the parents that her name should be recorded as above stated.

ANOTHER VERSION

Under date of Aug 26th a correspondent writing from The Dalles [illegible] the following [illegible] the shooting affray which [illegible] telegraphed The Oregonian [illegible] The following seem to be the facts. While the steamer *Spokane* was on her downward trip yesterday one of the crew named Pat Whalen got into a dispute with the Chinese cook regarding a piece of soap which [illegible] knocked him down. Capt Baughman hearing the noise while he was in the pilot house requested some one to go below and inquire what the trouble was. The person upon returning reported the facts and when Capt Baughman heard the same he ran the steamer ashore on the Washington territory side and ordered the mate and pilot to put Whalen ashore. In a few minutes these persons returned and reported that Whalen refused to go. Baughman then went down and ordered Whalen to leave the boat which he still refused to do unless [illegible] A few words passed between them when they clinched. Whalen was the more powerful man and Baughman tore himself loose and [illegible] a gun and came down again.

In the meantime Whalen had armed himself with a capstan bar and went aft when the friends of Whalen persuaded him to drop the bar and leave the boat which he started to do. It was necessary for him to go forward for that purpose and in nearing the gang plank he saw the captain standing on the stairs with his gun in his hands. The captain thinking that Whalen intended to again renew the contest raised the gun when it went off instantly killing Whalen. The captain claims that the gun was cocked, and that while he was in the act of raising it the weapon went off accidentally. Friends of Whalen assert that he raised the gun and fired. You cannot imagine the excitement here it being found necessary to swear in a posse of deputy sheriffs, as the friends of Whalen wanted to lynch him. Capt Baughman is in the county jail which is guarded at present by ten men armed to the teeth. At the inquest the jury brought in a verdict of manslaughter against Capt Baughman. The notes given you are from the evidence given at the inquest.

A PLAIN ISSUE

A Card to the Public

From October 27 18[illegible]—f[illegible] days before the close of the Centennial exhibition—when all the machinery for [illegible] was at [illegible] and [illegible] this day Weber has published the following figures of the judges on pianos [illegible]

ORIGINAL FIGURES

	B[illegible]	K[illegible]	C[illegible]	W[illegible]	
Tone		1	6	6	
Equality		[illegible]	6	5	
Quality	1	6	6	6	
Touch		6	6	6	
	4	21	24	23	95

Total—91 Out of a possible 96

Now Messrs Steinway publish fourteen months after the close of the Centennial a different set of figures on grand pianos [illegible] They admit publicly that while *all* the rest of the piano manufacturers have quietly attended to their business they have traveled thousands of miles, made two ocean voyages and carried on an immense correspondence covering thirteen months persuading [illegible] manipulating the judges with a slightly different result.

If Messrs Steinway or their agent here will prove that the above are not the correct *original* figures as handed in by the judges before the close of the Exhibition we will give to the poor of Portland our check for $500. Also if Messrs Steinway or their agents at Salem, Albany, The Dalles or Walla Walla will prove that their original figures were not 91 out of a possible 96 which is four less than Weber received we will give to the poor of each of the above cities our check for $500.

The fact of the matter is the Weber piano has become by far too popular to suit the interest of that competing firm and they now perceive that their former prestige is fading fast before the growing popularity of Mr Weber and every possible means is being resorted to in order to crush him.

Finally we would add that while it is unsafe to trust an unscrupulous concern like that of Messrs Steinway, whose questionable practices and manipulations at exhibitions have become notorious and whom we believe are capable of doing any thing except sticking to the truth yet we still have so much faith in the power of truth that we are loth to believe that even they would perjure themselves and dare to come forward and swear that Weber's figures, 95, as published throughout the world BEFORE the close of the exhibition are wrong.

Does any sane man or woman believe it possible that Messrs Steinway would wait thirteen months after the close of the Centennial to correct Weber's statement of figures, when it could have been done while the commission itself was in Philadelphia in session in thirteen hours, or surely in thirteen days? NEVER

Weber's Award signed by all the Judges, reads as follows

"For sympathetic, pure and rich tone, combined with greatest power as shown in three styles, Grand, Sq are and Upright Pianos, which show intelligence and solidity in construction, a pliant and easy touch which at the same time answers promptly to its requirements together with excellence of workmanship."

The above Diploma signed by every member of the Commission and Judges on Pianos can be seen at Weber's warerooms corner Fifth Avenue and 16th street, New York at any time.

Notwithstanding the desperate effort which is being made to injure the reputation of the only rival they are afraid of the Weber Piano will still continue to be the favorite with the public in the concert room and the parlor.

PORTLAND OREGON

Under the Supervision of BISHOP MORRIS

THIS SCHOOL WILL OPEN IN THE COMMODIOUS and beautiful new building on TUESDAY Sept. 3d under the Headmastership of PROF JOSEPH W. HILL an A M of Yale College. There will be a full corps of faithful and experienced assistants, among them Mr Louis Miner already favorably known to the patrons of the School.

Among the very satisfactory testimonials that Bishop Morris has received concerning Prof Hill are the following.

Yale College, April 26, 1878

This may certify that Mr Joseph W Hill has had ample experience in teaching, is mature in years, and is well fitted to take charge of a High School. He is a man of excellent character and cannot fail to give satisfaction as a teacher.

(Signed) N PORTER Pres.

The Selleck School Norwalk, Conn., Jan 16 1878.

I have long known Mr Joseph W Hill. He was my pupil for years and has since taught for me. To his ability and worth I unhesitatingly testify. He is an earnest student and in my judgment possesses rare qualifications for the profession of teaching. I commend him very cordially and thoroughly.

CITY.

THE PHONOGRAPH HAS ARRIVED.—At last that wonderful machine has arrived. We mean our friend the phonograph. It was brought to this city a short time ago by Mr James Call, the gentlemanly telegraph operator for the O S N Co in this city. The phonograph is under the personal charge of Mr Linderman, a young gentleman who came from San Francisco. The instrument was put in good condition and yesterday was on exhibition at Masonic hall. A number of persons were present during the afternoon to examine and hear the talking machine. The phonograph repeated with wonderful accuracy and distinctness a great many things which were spoken to it. To attempt to describe the phonograph in this connection is superfluous. It is certainly one of the most simply constructed and operated instruments in the world for accomplishing such truly marvelous results. Wonderful is the only word which can adequately express our idea of the phonograph. No one should fail to see it. Until further notice it will be on exhibition at Masonic hall. Of course everybody will go and see and hear for themselves.

THE BOHEMIA MINES.—Mr S W Crane has just returned from these mines where he went a short time ago in company with several gentlemen from this city on an inspecting tour. From him it is learned that he went down the old shaft a distance of sixty feet and took out a quantity of quartz which assayed all the way from $22 to $5,000 per ton. Two men are now at work repairing the quartz mill belonging to Joseph Knott of Portland, and we understand that a company is now endeavoring to lease the mill and mine. In case the necessary arrangements are perfected a force of hands will immediately be put to work and a drift run in to intersect the Excelsior lead five hundred feet below the shaft. The quartz in this ledge has always assayed well and it has been a matter of wonder to us that it has so long been permitted to remain idle.

BOARD OF EQUALIZATION.—As required by law, the board of equalization met yesterday in the office of the county clerk. The board consists of S W Rice, county judge, O M Barnard, assessor, and A E Borthwick who represents Mr Jas A Smith in the board during the absence of that gentleman from the state. The work of examining roll and equalizing the taxes has commenced in earnest and will be crowded through to completion. It will probably require a week at least to accomplish the work. Persons who desire any modifications made to their assessment should not omit to call on the board and make the proper representations before it is too late.

THE WRONG MAN AGAIN.—A German named Jacob Laela was arrested some distance below St Helens by one of the scouters and brought to this city yesterday afternoon. He was supposed to be one of the O'Shea robbers, but on being taken to the city jail was readily identified. It was another flash in the pan." Laela was set at liberty soon after he was brought to the jail. The affair created intense excitement and an immense crowd gathered about the jail under the impression that one of the robbers had been captured. When it was known that the wrong man was caught, there was a feeling of great disappointment.

PRISONERS.—Sheriff Twilight and Chief of Police Barry came up from Astoria last evening, having in charge three persons who were convicted at the last term of court. They are Nicholas Florentine, an Italian fisherman who goes to the penitentiary for one year on a charge of larceny, H G Neuman, for three years, on a charge of arson. Neuman was a baker, and gave as a reason for the act that if he burned out Mrs Binder there would be one bakery less and business with him would improve. He was greatly exercised because Mrs B had declined his offer of marriage. And Ah Sing, for one year, on a charge of larceny.

TEACHER RESIGNED.—Miss Sadie Hill, who has been employed for several years as a teacher in the grammar department in Central school, has recently tendered her resignation, which has been accepted by the board of directors. Mrs E P Fraser, a lady lately from the east, has been appointed to fill the vacancy. She has had nearly fifteen years experience in teaching and for six years was principal of one of the leading schools in Bloomington Illinois. The appointment is said to be an excellent one.

ALMOST DROWNED.—A man who came out in a small boat to the *Bonita* with mail at a point some miles above Astoria, was run into and the boat filled, giving the occupant a thorough ducking. Fortunately he caught a rope and was hauled on board. His boat was emptied of water and he got in in a much relieved state of mind and rowed off. The accident was due to his carelessness.

AGROUND.—At noon yesterday the *Bonita* passed the *Great Republic* aground at the foot of Walker's island, seven miles below Rainier. No signal was given for a pull and when the steamer had proceeded some distance the larboard wheel of the *Republic* was in motion but the effort seemed to be futile. The ebb tide at 3 o'clock probably floated her off.

PASSENGERS.—Among the passengers by the Astoria boat last evening were A A Cohn, Jacob Kahn J M and E G Hughes and ladies from the seaside, Mrs Geo Hermall from Unity, J O Hanthorn, Geo T Myers, Jas. Dowling, Mr Humason.

MET AND ADJOURNED.—The United States circuit court met yesterday morning and adjourned over until this morning without transacting any business. The United States district court will also meet this morning.

FROM UNITY.—The *Westport*, Capt Sam. Douglas, will leave Unity to day with nearly if not all, the Portlanders who remained there over Sunday. These pleasure seekers will reach here during the week.

THE "WONDER."—This boat passed Rainier at 2 o'clock yesterday with a large raft of logs in tow.

BENEFIT.—This (Tuesday) evening a performance will be given at Turn Verein Hall the proceeds of which will be donated to the family of the unfortunate lad Louis Joseph who was shot and instantly killed last week. The family is said to be in very limited circumstances and this is a case of deserving charity. A crowded house may be confidently expected. Mr J. M. Ward the members of his company and the Northwestern Band have kindly volunteered their services on the occasion. The hall company have also generously tendered the use of the hall free of charge. A very pleasant and entertaining programme will be presented. The performance will consist of The Secret or The Jealous Wife in which the entire company will appear. Following this will be an olio in which Mr Ward, Miss Carrie Clarke and Mr Southerland will assist. The entertainment will conclude with Mr Ward's specialty of "The Widow's Stratagem." A large number of tickets have been sold, and a substantial sum, it is hoped, will be realized.

A CHALLENGE.

PORTLAND August 26 1878

There having been a great deal said recently in the city papers by interested parties to the effect that the Silsby fire engines are not efficient for fire service I propose that the question be settled so far as the engines in use in this department are concerned as follows. I hereby challenge Willamette No 1 to friendly contest with Multnomah No 2 with a view to test their relative value as fire apparatus, the conditions of the trial to be such as shall be imposed by a committee of five competent men, two of whom shall be selected by myself, two by any parties representing No 1 and the fifth by the first four.

I hope this will be accepted. I do not ask the advantages of a test as against a single pump but am willing to test the double pump.

Fires are comfortable in the evenings and overcoats acceptable—particularly to those from inland

Considerable quantities of salmon in cases are stored at the wharves. The ... took over 20,000 cases and the *Great Republic* will take on an equal amount. The canneries have about closed out the stock put up and sent them to this point for shipment

The improvements here within the past two years have been remarkable and that which pleases the citizens most is the long roadway connecting upper and lower Astoria. A stranger is sure to hear of it. Buildings have risen with wonderful rapidity all of which are frame and are the main of a substantial character

Business is ... quite overdone and we learn of several who will ... up and seek other localities

There are some forty saloons a large number the reader will say for a town of scarcely four thousand inhabitants. We will not attempt to give the number of hotels and boarding houses as they are to be found as readily as saloons and many of both are of the very lowest order while the few of the better class will equal if not surpass those in Portland or any place in Oregon. Mrs Arrigoni who is well known in Portland talks seriously of locating in the metropolis. She knows how to keep a hotel. The Occident is enjoying the largest patronage

Through the courtesy of Mr Curtis J Trenchard who will qualify Sep 1st as chief engineer of the Portland fire department we were permitted to see Rescue No 2's new Silsby second class engine. It is a first class and is universally admired. The company has a membership of 46. Astoria No 1 has 52 members. This company runs Multnomah's old hand engine. The Alert hose and ladder company have about finished a new truck. They have 25 members. Rescue's quarters are new ... and neat throughout. The water supply is unsurpassed —*at high water*

A bell tower rising sixty feet was recently erected on which is placed the bell made at Portland and presented to the Astoria fire department by the ladies of this city who held a fair to raise the funds. Mr Peter Wilhelm's fountain is located at its base, and it was just like Peter to present it to the city

A party which includes Messrs D W Taylor and Tabor of Portland are surveying the bar on the tug *Gen Canby*

A foot race took place on Saturday in full view of the postoffice and as the competitors wore their garments rather abbreviated I stand citizens were undoubtedly greatly shocked at the spectacle. The amusement served to kill time of many persons who had little else to do

We understand the land back of the town and extending to Young's river a distance of about two miles has been to a great extent laid off into town lots and grades established. Evidently Astorians look well ahead. As it is a succession of hills they may well do so

Mr J S Larsen, formerly of your city, who opened a grocery here about three years ago on a small scale has now the largest establishment of the kind in the city and does considerable jobbing. We congratulate you, Esper

The latest arrivals from Portland were P C Schuyler Esq and A G Cunningham Esq Mrs Capt Lease and daughter Miss Carrie Oppenheimer and Miss Caroline Stewart of Portland Miss Alice Bell and Miss Fannie Brown, of Salem, are sojourning in Astoria.

Purser Noyes of the *Bonita* is lying off at Astoria on account of illness

It would be useless to attempt to give a list of Portlanders engaged in business or employed at Astoria as they comprise a large share of the population

There seems to be a lack of attention on the part of Astorians to give strangers information ... pleasure boat ... as they seemingly desire to detain visitors in the town as much as possible. Caps Strang was figuring to get up an excursion ... afterwards to take ... fishing ... kers Bay

HAVE WE ANOTHER SECT?

TO THE EDITOR OF THE OREGONIAN.

... article with the above caption ... THE OREGONIAN ... a baptism administered ... the writer the previous evening, and thereupon calls upon him to answer several questions. Were it not that the article relies closely upon what the writer designates a "human institution known as the Y M C A" I should let it pass. Justice to that Christian and truly ... institution ... categorical answers are given simply to economize space. The following are the important questions and their ...

I. We would like to enquire into what ... was baptized. Answer. According to ... Cape ... into Christ ...

II. ... any place in the family of God. Answer. According to the highest authority ... kingdom of God (See Luke 18 16 et al)

III. ... called upon to speak of its ... which shall I say. By Chaplain Stubbs. Answer. I should not object. If however ... answer in the language of the New Testament as understood by the oldest Protestant church within the present bounds of the United States she would correctly say by Bishop Stubbs

IV. But where? In what church. Answer. In Portland Oregon and in the church of the first born which are enrolled in heaven (See Heb 12 23). In the days of ... the term church was used in another sense and was a church in the house of Nymphas (Colossians 4 15). Another in the house of our dearly beloved Philemon (Philemon verse 2). And yet another in the house of Aquila and Priscilla (1 Cor 16 19). Probably in either of those houses I should have been permitted to administer baptism, nor would any of the brethren considered me guilty of establishing "another sect." Justified by these precedents I performed the ceremony in the rooms of the Y M C A with the explicit understanding on the part of the parents of the child that for the purposes of "church order" her name should be enrolled on the records of the Congregational church in this city of which Rev T A Cruzan is pastor and of which church I am a member being also a duly accredited ... or minister of the Congregational Association of Ministers of Oregon and Washington Territory

A due regard to the consistency ... words additional and explanatory. In 18 ... I was ordained ... Baker and have since ... for ... twenty two years ... ago ... weeks. It will be ... that I was ... holy orders so called by one who ... from ... a distinguished presbyter in the Episcopal church ... the terms ... the New Testament are used ... Therefore any ... spiritual ... through prelatical ... or any investiture of divine authority can be conferred by ecclesiastical manipulation so as to exempt a church officer from the brand of schismatic then holding in my possession at the time my ordination parchments I had both and was fully authorized to comply with the pious request of the parents, who sincerely desired to consecrate their little one to God and sacredly promised to "train her up in the nurture and admonition of the Lord." I do not pretend, however, to have officiated as an elder in the Methodist Episcopal church—my ecclesiastical views having undergone a radical change—much less as the chaplain of the Y M C A. These facts the writer of the above named article who signs himself "Observer," would have known had he been an observer. To claim that he was present at, and hence an observer of the administration of the ordinance of baptism on that occasion, would be to charge him with a malicious misrepresentation of facts, to deny that he was present and therefore did not observe the proceedings is simply to charge him with using an incorrect signature. This latter is therefore charitable, and by me is deemed preferable. As therefore he wrote in ignorance of the facts as stated at the time by me I will here announce to the public that as a Congregational clergyman I baptized this child at the time and in the place indicated. I did so, (1) because the father asked me to do so (2) because they were entire strangers in the city (3) because I understood the father to say that he was to leave the city the next day (4) because he was to locate remote from any church privileges (5) because there was no church edifice open for public worship that evening and (6) because the only alternative seemed to be to let these strangers pass through our midst seeking in vain for the services desired, or to render them at the hotel where they were sojourning or to require them to go all the way up town to my residence corner of Seventh and Main streets, or to ask permission of the Y M C A to administer the rite at the Wednesday evening service for prayer held by christians of the various churches of the city. The preference of the parents (not my preference) decided on the latter, and there the child was baptized with the understanding on the part of the parents that her name should be recorded as above stated.

A PLAIN ISSUE.

A Card to the Public.

From October 27 ... days before the close of the Centennial exhibition—when all the ... this day Weber has published the following figures of the judges ...

ORIGINAL FIGURES

	B	A	...	...
...	...	...	...	...
...	...	...	...	5
Quality	...	...	...	...
...	...	...	6	...
Total —	...	...	24	...

Out of a possible 96

Now, Messrs Steinway publish fourteen months after the ... of the Centennial a different set of figures ... They admit publicly that with all the rest of the piano manufacturers ... traveled thousands of miles made two ocean voyages and ... correspondence ... manipulating the judges with a slightly different result

If Messrs Steinway or their agent here will prove that the above are not the correct *original* figures as handed in by the judges before the close of the Exhibition we will give to the poor of Portland our check for $500. Also if Messrs Steinway or their agents at Salem, Albany, The Dalles or Walla Walla will prove that their original figures were not 91 out of a possible 96 which is four less than Weber received we will give to the poor of each of the above cities our check for $500

The fact of the matter is the Weber piano has become by far too popular to suit the interest of that competing firm and they now perceive that their former prestige is fading fast before the growing popularity of Mr Weber and every possible means is being resorted to in order to crush him

Finally we would add that while it is unsafe to trust an unscrupulous concern like that of Messrs Steinway whose questionable practices and manipulations at exhibitions have become notorious and whom we believe are capable of doing anything except sticking to the truth yet we still have so much faith in the power of truth that we are loth to believe that even they would perjure themselves and dare to come forward and swear that Weber's figures, 95 as published throughout the world since the close of the exhibition are wrong

Does any *sane* man or woman believe it possible that Messrs Steinway would wait thirteen months after the *close* of the Centennial to correct Weber's statement of figures, when it could have been done while the commission itself was in Philadelphia in session in thirteen hours, or surely in thirteen days. NEVER.

Weber's Award signed by all the Judges, reads as follows

For sympathetic pure and rich tone combined with greatest power as shown in three styles Grand, Square and Upright Pianos, which show intelligence and solidity in construction a pliant and easy touch ... at the same time answers promptly to its requirements ... together with excellence of workmanship

The above Diploma signed by every member of the Commission and Judges on Pianos can be seen at Weber's warerooms corner Fifth Avenue and 16th street, New York at any time

Notwithstanding the desperate effort which is being made to injure the reputation of the only rival they are afraid of the Weber Piano will still continue to be the favorite with the public in the concert room and the parlor

TUESDAY MORNING, AUGUST 27, 1878.

A POEM OF HEINE.

What sets my blood so mad a spin?
Why burns my heart with a fire within?
My blood it boils, it foams, it seethes,
And a gnawing flame my heart enwreathes.

My blood it seethes and foams so mad,
For I an evil dream have had.
The son of Night came, swart and grim,
And took me away perforce with him.

He led me to a house was bright
With the blaze of torches and lamps a light;
There was mirth and feasting and minstrel din—
I came to the hall, I entered in.

'Twas a wedding feast; as I came near
The guests at the table were making cheer,
And when the bridal pair I spied,
Oh, woe, my own love was the bride!

My own, own, very love was she.
The bridegroom unknown was to me.
Close at the back of the fair bride's chair,
I took my stand in dumb despair.

The music sounds; I stood stock still.—
Oh, the pang as the revel rose high and shrill;
The bride, she looks like a soul that's blest,
Her hands in his the bridegroom pressed!

The bridegroom fills his goblet up,
And drinks, and offers the bride the cup
Full courteously—she smiles a thank.
Oh, woe, it was my red blood she drank!

The bride a rose-checked pippin took,
And gave it her groom with a sidelong look;
He took his knife and cut it apart,
Oh, woe, that was my very heart!

Long and fondly they ogled and eyed.
The bridegroom boldly clasps the bride,
On her red lips kiss on kiss rains he—
Oh, woe, it is cold Death kissing me!

My tongue lay in my mouth like lead,
And never a word could I have said;
High swells the music, the dance began,
And the buxom bridal pair led the van.

As I stood like one in death-trance bound,
The dancers go spinning and whirling round;
To the bride the bridegroom whispers low,
Her cheeks flush red, but in wrath? ah, no!

Boosting the Great Fraudee.

[From the Springfield Republican.]

The fact that Mr. Tilden really opposed the electoral commission scheme from the start will help him with the party that has been denouncing it ever since, while the continuance of the discussion maintains the prominence of "the Great Fraudee" as the natural candidate to rebuke the Fraud by an unquestioned election in 1880.

A blind mendicant wears this inscription round his neck: "Don't be ashamed to give only a half-penny. I can't see."

FINANCE AND COMMERCE.

Financial.

MONDAY EVENING, August 26, 1878.

Legal tenders in Portland—buying 99¼; selling, par.

Silver coin—1½@2 per cent. discount.

SAN FRANCISCO, Aug. 26.—M.—Currency—99¾ buy; par sell.
Silver—98 10 100 buy; 98⅝ sell.
Trade Dollars—96½ buy; 97 sell.
NEW YORK, Aug. 26.—11 A. M.—Gold 100¼.
Silver bullion 1,000 fine, $1 14¼ per fine ounce.
U. S. bonds, 5-20's of 1867, 105; 5's of 1881, 106; 5's closed 6; 4 ½'s closed 4¾.
LONDON, Aug. 26.—12 M.—Consols 94 11-16, money; 94⅝ account.
Silver—English standard, per ounce of 925 fine, unchanged; 5's, 7¾; 4½'s, 5¾.

Financially the local market is in about the same easy condition noticed so frequently of late, with a very fair demand from those engaged in the crop movement, but the inquiry for all legitimate purposes is readily met at the stereotyped rate of 1 per cent. per month. Rarely long term loans are made on real estate securities at 10 per cent. per annum, but this rate is not a rule in this market.

In San Francisco the demand for money shows some augmentation, but the call is still regarded as sluggish for the season. In fact there seems to be but little in the Bay city to stimulate activity except the stock market and the grain trade. Real estate matters are reported as exceedingly dull there.

Domestic Produce.

The receipts of domestic produce at this port are increasing very materially, and dealers throughout the city are actively employed. Prices for breadstuffs have been firmly sustained in the local market for a week past, and transactions have been frequent and of a large aggregate amount. The ruling quotation for good shipping wheat is $1 55 per cental, with chances of a slightly better rate for choice lots. The shipments of both wheat and flour to San Francisco are quite large, owing to the low freight rates by steamer. The direct shipments have not begun as yet in large volume, but several vessels are ready to receive cargoes, and will have dispatch in September.

Oats, hay, mill feed, etc., are in rather better supply than at the time of our last review, but quotations then given are steadily sustained.

Provisions are firm and the demand fairly active as compared with the dull feeling which has ruled in this branch of trade for some time past. Eggs, dairy products, etc., are coming to hand in moderate quantities and supplying only the local trade with some light shipments. The wool market is steady and unchanged, though some who have been free buyers seem now disposed to get out of the market.

English Wheat Market.

LONDON, Aug. 26.—Floating cargoes firmer and held higher; on passage and for shipment, firmer and held higher; Mark Lane steady.

Quotations of good cargoes, off coast, per 480 lbs sea damage for seller's account, less usual 2½ per cent. commission; Med. Ch. or Mil. wheat, 44s; red winter, 47s 6d; California, 50s 6d.

Shipping wheat, fair average California, on passage, per 100 lbs, Queenstown for orders, just shipped, 47s; nearly due, 49s 6d; Ch. or Mil., for shipment during present month and following one, per 480 lbs, Am. terms, 41s 6d.

LIVERPOOL, Aug. 24.—Wheat—Fair to choice shipping California, per cental, 10s 2d10s 8d; spot slow but steady, held higher; fair to choice shipping club, per cental, 10s 6d10s 10; red Am. spring, No. 2 to No. 1, 9s 2d@9s 9d.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself, Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.

Office, 63 First street, over McCormick's Franklin Bookstore.

New System of Wagon Brakes.

TRULLINGER PATENT BRAKE.

NO SHOES TO WEAR OUT TIRES!

No Brake Bar used. Will hold a Wagon anywhere from Backing or going Forward.

THIS NEW BRAKE NOW BEING INTRODUCED by the inventor, J. C. Trullinger, is a combination of friction gear applied to the hub of a wagon. It is simple and light, yet has more strength and durability than any other wagon brake now in use. It is so attached to the wagon that it is out of the way of the gearing, yet always reliable and at hand when required. Any teamster or mechanic can see at once its utility and effective force to hold a load on a down grade, or to prevent horse backing when required. The Brake is made entirely of iron, no wooden part being necessary, as no brake bar is used; hence it does not carry mud and is not affected by wet and muddy or icy roads.

We invite critical examination, as we believe its merits can be demonstrated to any party who uses or understands a wagon brake.

GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Labor Committee.

NEW YORK, Aug. 26.—Hewitt read a card from John Peters accusing the committee of wickedly gathering up all the crazy men in New York to testify and make labor ridiculous.

Chas. H. Maxwell, a ship owner, attributed the decline of the American shipping trade to England outstripping the United States and to the navigation laws, which are oppressive. Ship owners got absolutely no return. By running ships they only saved themselves from greater loss which they would sustain if the ships laid idle. Economy in national, state and municipal governments, with the abolition of our navigation laws, would soon bring good times around.

Vice President Walker, of the Gold and Stock Telegraph Company, held that too much capital was permanently invested, leaving the supply too light for daily commercial business. A settled currency on a coin basis, governmental supervision of all corporations, tentative financial and fiscal legislation and a slight protective tariff would produce another era of activity and prosperity. Adjourned.

Butler Ought to Know.

BOSTON, Aug. 27.—Gen. Butler publishes a card this afternoon in reply to a dispatch about the alleged Sherman letter, saying there is not one word of truth in it. "I have never seen the original of the Sherman letter. I never told personal friends or enemies that it had been obtained, or that it was genuine. I do not believe in its present existence, if it ever had any.

Dennis' Howl.

COLUMBUS, Ohio, Aug. 26.—Dennis Kearney arrived here at noon and spent the day seeing the city under the auspices of the National party city committee. To-night he addressed about 8,000 people in the state house yard. His speech was similar to that delivered at other points.

The Battle with Moonshiners.

NASHVILLE, Aug. 27.—The *American's* special from Lebanon says the revenue fight in Orton continued till Sunday afternoon, the moonshiners having hemmed the revenue men in a house. Citizens from Cookeville arrived and persuaded Morgan to allow the revenue men to withdraw to Cookeville.

The Campaign in Ohio.

TOLEDO, Aug. 27.—The political campaign in Northwestern Ohio was to-night opened on the part of the Republicans by Secretary Sherman, who addressed a largely attended meeting at Wheeler's Opera House. The secretary devoted himself mainly to the consideration of the financial question. Mr. Sherman, during his speech, read a letter from a correspondent of the Cincinnati *Enquirer* of to-day, in which the following questions were asked about the trade dollar:

What is the matter with the trade dollar? I expect him to say it is not a legal tender, nor is it for 90 cents.

2d. Did the government receive dollar for dollar when she put the trade dollar out.

3d. Did the person on receiving the trade dollar from the government do so with the understanding that he had to take it to China to spend it? If anybody is to blame who is it?

He said the trade dollar was not a legal tender but it is worth 90 cents bullion. The standard dollar is a legal tender and therefore worth par. That is the difference. To the second question he answered that the government did not receive dollar for dollar for the trade dollar, but received 1½ cents for coining each dollar for private bullion owners, that was all. It was the miller that ground the grist for a small percentage. To the third question he replied that the bullion owner did receive the trade dollar for exportation to China, a device made to give him a market for his bullion, and upon the fall of silver it was perverted by him as a means of cheating our own people.

A Diamond Mine Salter.

NEW YORK, Aug. 27.—The *Sun* has a letter from Louisville, dated 23d, stating that Philip Arnold, made notorious some years ago in connection with salting a diamond field in the far west, was lately shot at Elizabethtown, Ky., by a man named Holdsworth, in a bar room row. He will probably recover, but will lose an arm.

Prisoners Killed.

LOUISVILLE, Aug. 27.—A special dispatch from Princeton Ky., to the *Courier-Journal* says J. W. Riggs and J. W. Luttrell, in attempting to escape from court while being tried to-day for horse stealing, were shot and instantly killed.

Dakota Tornado.

ST. PAUL, Aug. 27.—A tornado and hailstorm at Fargo, D. T. this evening, prostrated a dozen buildings, and damaged many more. Three persons were hurt but no lives lost. The storm extended twelve miles along the Northern Pacific.

Troops for the Pacific Coast.

OMAHA, Aug. 27.—A special train of six coaches, having on board 263 recruits from New York, left Omaha at 11:30 A. M. to-day, thirty minutes ahead of the regular express time, and will run through to San Francisco on regular time, arriving there the 31st. The recruits are to be assigned to duty in the 8th and 12th regiments infantry in California. They were in charge of Capt. Coolidge, of the 7th infantry, Lieut. Hancock of the 2d infantry, and Lieut. Barber, 16th infantry.

Scared Away from Oregon.

Col. T. E. Hogg, of Oregon, who went to Europe some months ago to stir up immigration to Oregon, passed through this city to-day, homeward bound, and reported that the prospects for European immigration to his state are very poor, as those who had intended to go to Oregon have abandoned the idea, as they have been scarced by the Indian troubles, and therefore he gave up his efforts in that direction.

Officers Murdered by Robbers.

CHEYENNE, Aug 27.—The removal of spikes and fish plates a week ago from a rail two miles east of Medicine Bow, near a deep ravine, gave rise to suspicion that it had been done with a view to wreck and rob the train. Deputy Sheriff Widdowfield and another named Vincent, started on what was believed to be the trail of the would-be robbers, and not returning, a large party started in search of them last Sunday. One of the party has returned and states that the bodies of Widdefield and Vincent were found in a narrow canon of Elk mountain, where they probably met a gang of robbers and were killed, the former receiving two bullets in the neck and the latter four in the chest.

WASHINGTON TERRITORY.

Seattle now gets the mail from the south seven times a week.

The census gives Columbia county 71 more inhabitants than Walla Walla county. The former will soon be much the more populous.

The Republican territorial committee recommend that all county conventions be held on or before the 7th day of September next, instead of the time first designated.

The Seattle common council has passed an ordinance fixing the salaries of the city clerk, attorney and treasurer at $300 per annum, and declaring that "no other fee or compensation shall be allowed in any case whatever."

The Walla Walla water company, says the *Union*, have issued an edict which makes water a luxury in this city. They charge a family $2 a month for household purposes and a dollar a month for each bath tub, a premium on dirt. We can tell the *Union* that Portland pays these prices all the time.

Walla Walla *Union*: The Lewiston *Teller* complains because none of the papers in Eastern Washington either advocate or oppose the state constitution. We do not know how it is with our cotemporaries, but the *Union* has more valuable fish to fry. Nor is there any necessity, so far as we can discover, for now discussing the constitution.
